

SIRCO

NON-FUSIBLE DISCONNECT SWITCHES

Ferraz Shawmut SIRCO disconnect switches are extremely durable, manually operated, non-fused disconnect switches. These heavy-duty switches are designed with the most up-to-date disconnect switch technology available. Designed to suit the UL98 standard, the SIRCO gives you a product that “makes and breaks” power circuits on load. The SIRCO switches are tested and approved for use in the most demanding applications, such as “Service Entrance”. Up to 400A, the switches come with visible blade contacts. A wide array of handles are available to meet OSHA padlocking requirements, NEMA configurations, defeater options and NFPA 79 requirements.

HIGHLIGHTS:

- Service entrance rated
- Compact footprints
- Front operated switches
- Side operated switches
- Visible blade contacts up to 400A
- Line side Shrouding supplied with switch
- Defeatable pistol handles automatically re-latch when panel door is closed - no tool necessary to reset latch
- External or direct operation handles
- Flange operation (For use with side operated switches)

APPLICATIONS:

- Service entrance or main panel disconnects up to 600VAC, 1200A
- “Make and Break” power circuit applications on load
- NFPA 79 Solutions

Ratings

- 600 VAC, 250VDC
- 30, 60, 100, 200, 400, 600, 800, 1000, and 1200 amperes
- Up to 200kA Short Circuit Rating with Fuses

Approvals

- All SIRCO switches meet the requirements of UL98
- UL Listed Guide WHTY, File E191605 
- CSA C22.2 # 4 Class 4652 04, File 703166 
- IEC 947-3 CE mark (other IEC ratings up to 5000 A available on request, please consult us)

TERMINAL LUGS

TL200

For use with SIRCO V 200 A

1 wire 3/0 - #6

TL400

For use with SIRCO 400 A

1 wire 600 MCM-2

TL600 AND TL1200

TL600: For use with SIRCO 400 & 600 A (1 lug per terminal)

TL1200: For use with SIRCO 800, 1000 & 1200 A (2 lugs per terminal)

2 wires 600 MCM-2

TL800

For use with SIRCO 800 A - 1000 A

3 wires 600 MCM-2
