

ULTRASAFE™ Fuse Holders

 GROUPE
CARBONE LORRAINE

 **Ferraz
Shawmut**
Your circuit protection resource.

ULTRASAFE Series Nomenclature

Description-fuse holders	for use with 14x51mm fuses	for use with 22x58mm fuses
1 Pole	US141	US221
1 Pole with Indicator	US141I	US221I
1 Pole with Microswitch	US141M	US221M
1 Pole with Microswitch & Indicator	US141MI	US221MI
2 Pole	US142	US222
2 Pole with Indicator	US142I	US222I
2 Pole with Microswitch	US142M	US222M
2 Pole with Microswitch & Indicator	US142MI	US222MI
3 Pole	US143	US223
3 Pole with Indicator	US143I	US223I
3 Pole with Microswitch	US143M	US223M
3 Pole with Microswitch & Indicator	US143MI	US223MI
3 Pole with 2 Microswitches	US143M2	US223M2
3 Pole with 2 Microswitches & Indicator	US143M2I	US223M2I
1 Pole with Integral Neutral Link	US14N	US22N

Accessories for Assembling Multiple Poles

	US14 Series	US22 Series
Multi-pole Assembly Kit	US14PAK	US22PAK
Microswitch for single pole	US14S1P	US22S1P
Microswitch for 3 pole	US14S3P	US22S3P
2 Microswitches for 3 pole	US14S3P2	US22S3P2

Specifications

	US14 Series	US22 Series
Voltage AC	750V	750V
Amperage	50A	125A
Withstand Rating (RMS Symmetrical)	200,000A	200,000A
Termination Screw Type	Phillips/Slot Screw	Phillips/Slot Screw
Suggested Torque (lbs-in)	35	45
Termination Type	Pressure Plate	Pressure Plate
Wire Range (Solid/Stranded CU)	#2-#14	1/0-#14
Load-Break Disconnect	No	No

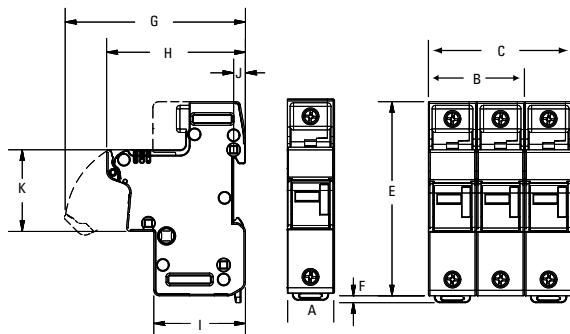

Agency Approvals

	US14 Series	US22 Series
UL 512, Guide IZLT2, File E52283 (Recognized)	Yes	Yes
CSA C22.2, Class 6225, File 32169	Yes	Yes
IEC 269	Yes	Yes

ULTRASAFE Series

ULTRASAFE fuse holders will accommodate the following Ferraz Shawmut fuses:	US14 Series	US22 Series
	60gD14, A70QS, A70P, URC, URD	60gD22, A70QS, URD

US14/22

Outline Dimensions - mm (in.)

	US 14 Series		US22 Series	
Dimension	mm	in	mm	in
A	26.5	1.04	35.0	1.38
B	53.0	2.09	70.0	2.76
C	79.5	3.13	105.0	4.13
D	-	-	-	-
E	107.0	4.21	124.0	4.88
F	3.8	0.15	3.8	0.15
G	94.0	3.70	103.0	4.06
H	76.5	3.01	76.5	3.01
I	50.5	1.99	50.5	1.99
J	6.5	0.26	6.5	0.26
K	45.0	1.77	45.0	1.77

the revolutionary advantages

“Finger-safe” fuse changeouts

Compact, versatile designs

At-a-glance open-fuse indication

Snap-on simplicity of DIN rail mounting

UL, CSA and CE Mark for global acceptance

Ferraz Shawmut continues to lead the safety evolution with even more improvements to our popular ULTRASAFE fuse holders.

Renowned throughout the industry for their forward-thinking design, ULTRASAFE fuse holders deliver more than “finger-safe” protection, they deliver the features both installers and end users demand.

Features like lockout/tagout compliance, the simplicity of DIN rail mounting, and at-a-glance open-fuse indication.

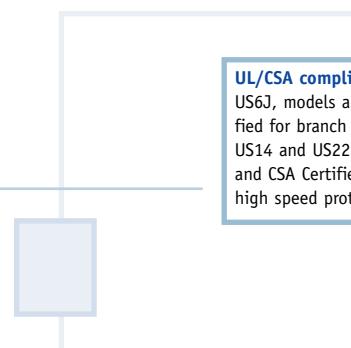

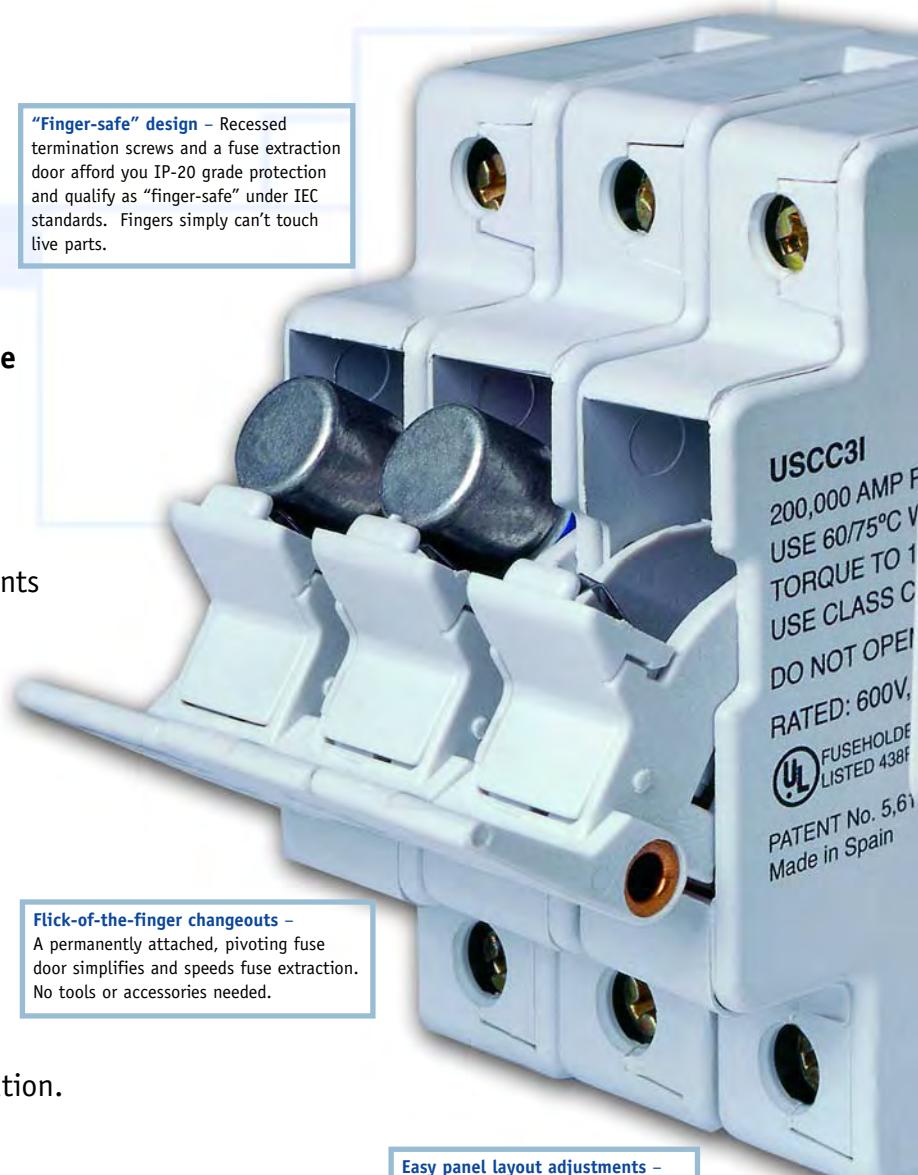

In addition, our new US14 and US22 series holders feature microswitch capabilities for remote indication. And for quick and easy panel layout adjustments, many models include an innovative DIN rail latch adapter. Simply unlatch, slide the holder to the new position, and relock. With ULTRASAFE, ease-of-use — and safety — come built right in.

“Finger-safe” design – Recessed termination screws and a fuse extraction door afford you IP-20 grade protection and qualify as “finger-safe” under IEC standards. Fingers simply can’t touch live parts.

Flick-of-the-finger changeouts – A permanently attached, pivoting fuse door simplifies and speeds fuse extraction. No tools or accessories needed.

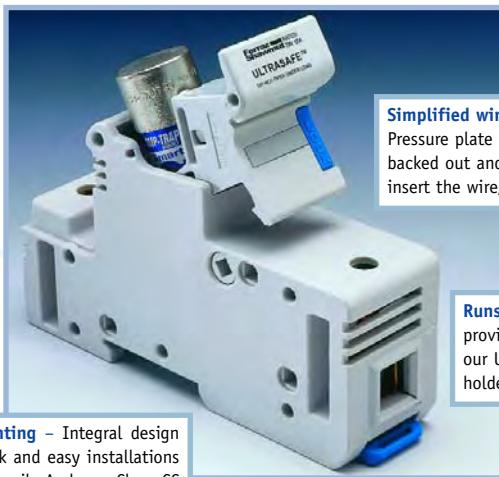

Easy panel layout adjustments – Need to make room for another fuse holder or component? Simply unlatch the DIN rail adapter, slide the holder to the desired position, and relock.

UL/CSA compliance – USCC, US3J and US6J, models are UL Listed and CSA certified for branch circuit protection. USM US14 and US22 models are UL Recognized and CSA Certified for supplementary and high speed protection.

European acceptance – All ULTRASAFE fuse holders have a CE Mark for acceptance throughout the European community.

Simplified wire terminations – Pressure plate terminals arrive backed out and ready to wire. Just insert the wire, tighten and go.

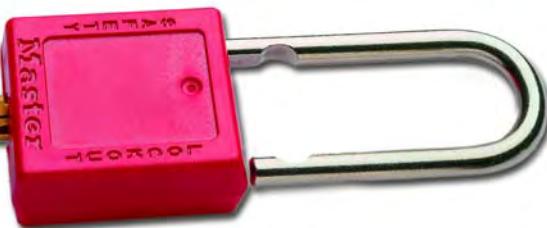

DIN rail mounting – Integral design allows for quick and easy installations on 35mm DIN rail. And our Class CC and Midget holders take up 15% less space than traditional holders.

Runs cool – Our vented design provides adequate airflow around our US3J, US6J, US14 and US22 holders at all times.

Totally modular – Use single or multiple poles. Or add poles in the field using a pin assembly kit to form any number of poles. Either way, you have maximum application flexibility.

At-a-glance open-fuse indication – A long-lasting, neon indicator light helps you identify the down circuit fast. So you can clear the problem, replace the fuse, and get back on-line fast.

Lockout/tagout compliance – US3J, US6J, US14 and US22 fuse holders provide a lockable extraction door to meet OSHA requirements and prevent personnel from accidentally energizing equipment that is off-line for repairs or maintenance.

your global resource

With products to meet every major global standard and a worldwide sales and service network, Ferraz Shawmut offers a range of solutions unmatched in the industry. Plus technical and applications support that combine our global expertise with local, customer-first service. So whatever and wherever your circuit protection needs may be, there is one company that can meet them all.
